CAREER OBJECTIVE

Computer Science Engineering student with a strong foundation in Java, Object-Oriented Programming, Spring Boot, Spring Data JPA, REST API development, and SQL. Seeking an entry-level Software Developer/Java Backend Developer role where I can apply my programming and problem-solving skills to develop reliable applications, contribute to real-world projects, and continuously enhance my technical expertise.

TECHNICAL SKILLS

Languages:	Java, SQL, HTML, CSS
Backend:	Spring Boot, Spring Data JPA, REST APIs
Databases:	MySQL
Tools:	Git, GitHub, IntelliJ IDEA, Postman
Core Concepts:	Data Structures & Algorithms, OOPs, DBMS, Exception Handling, Validation, Multithreading

EDUCATION

Meerut Institute of Engineering and Technology (MIET), Meerut

2024 – 2028

Bachelor of Technology (B.Tech) in Computer Science & Engineering

- Currently in 3rd Year (5th Semester) | **CGPA: 7.3/10**
- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (OOPs), Database Management Systems (DBMS), Spring Boot & REST Web Services.

TECHNICAL PROJECTS

Hospital Management System

Java, Spring Boot, Spring Data JPA, MySQL, REST API

- Developed a backend application to manage patients, doctors, and appointments using Spring Boot and RESTful APIs.
- Implemented CRUD operations, JPA entity relationships, input validation, exception handling, pagination, and sorting.
- Integrated MySQL with Spring Data JPA for persistent and structured data management.
- Tested and validated REST endpoints using Postman.

Library Management System

Java, Spring Boot, Spring Data JPA, MySQL, REST API

- Developed REST APIs for managing books, users, and borrowing records.
- Implemented CRUD operations, JPA entity relationships, JPQL queries, custom exception handling, pagination, and search functionality.
- Integrated MySQL using Spring Data JPA for database persistence and data management.
- Used Postman for API testing and Git/GitHub for version control.

KEY COMPETENCIES

- Technical Practices: RESTful API Design, CRUD Operations, Object-Oriented Programming (OOPs), Version Control (Git/GitHub)
- Backend Development: Exception Handling, Data Validation, Pagination & Sorting, API Testing with Postman
- Professional Skills: Problem Solving, Analytical Thinking, Clean Code Practices, Technical Communication
